

# PHOTOMONTAGE TABLET BACKGROUND DESIGNS

Your photo montage memorial tablet includes an optional background photo design. This design allows you to personalize your tablet with a special photo of your choice such as a special vacation spot, a memorable sunset, or beautiful landscape. Alternatively, you can choose a background design from the options provided below. If you prefer not to use a background photo design, the travertine design will be used. Please keep in mind the photos may be scaled to fit the tablet dimensions, so the final result may not be an exact replica of what is shown below.
